© 1997 Lippincott–Raven Publishers, Philadelphia

SUBJECT INDEX

Abduction strength
Abduction strength following intramedullary nailing of the femur, 93
Acetabular fractures
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328
Acetabulum
Femoral nerve palsy associated with an associated posterior wall transverse acetabular fracture, 40
Intraoperative monitoring of motor pathways during operative fixation of acute acetabular fractures, 2
Achilles tendon
Avulsion fracture of the calcaneus: report of a case using a new tension band technique, 61
Amputation
Train injuries in children, 126
Anatomy
The infrapatellar branch of the saphenous nerve: an anatomic study, 195
Lateral condyle fractures in children: evaluation of classification and treatment, 117
Angiography
Knee dislocation: initial assessment and implications for treatment, 525
Animal model
Bovine-derived bone protein as a bone graft substitute in a canine segmental defect model, 496
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Ankle fracture
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
MR imaging of biodegradable polylevolactide osteosynthesis devices in the ankle, 559
Ankle instability
Acute repair and delayed reconstruction for lateral ankle instability: twenty-year follow-up study, 530
Annulus fibrosus rupture
Associated lumbosacral junction injuries (LSJIs) in pelvic fractures, 509
AO clamp
A simple technique for creating hybrid fixators using a modified AO single adjustable clamp, 54
AO nails
A new technique for the distal locking of solid AO unreamed tibial nails, 446
AO/ASIF fracture classification
Assessment of the AO/ASIF fracture classification for the distal tibia, 477
AO/OTA fracture classification
Interobserver variation in the AO/OTA fracture classification system for pilon fractures: Is there a problem?, 467
Arthroplasty
Total hip arthroplasty for complications of proximal femoral fractures, 166
Articular cartilage
Effect of impact load on articular cartilage: development of an intra-articular fracture model, 319
Articular facet
Associated lumbosacral junction injuries (LSJIs) in pelvic fractures, 509
Articular fracture
Articular fracture reconstruction, 319
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
Articular pressures
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Autograft
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Avascular necrosis
Open total talus dislocation: case report and review of the literature, 45
Avascularity
Segmental avascularity of the humeral diaphysis after reamed intramedullary nailing, 308
Avulsion fracture
Avulsion fracture of the calcaneus: report of a case using a new tension band technique, 61
Axillary crutches
Bilateral brachial plexus compressive neuropathy (crutch palsy), 136

Basicervical fracture
Biomechanical comparison of internal fixation techniques for the treatment of unstable basicervical femoral neck fractures, 337
Benzalkonium chloride
Benzalkonium chloride: a potential disinfecting irrigation solution, 121
Biaxial dynamization
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180
Biodegradable implants
MR imaging of biodegradable polylevolactide osteosynthesis devices in the ankle, 559
Biomechanics
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Biomechanical comparison of fixation methods in transverse olecranon fractures: a cadaveric study, 565
Biomechanical comparison of internal fixation techniques for the treatment of unstable basicervical femoral neck fractures, 337
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Biomechanical evaluation of current patella fracture fixation techniques, 351
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Distal femoral fixation: a biomechanical comparison of the standard condylar buttress plate, a locked buttress plate, and the 95-degree blade plate, 521
Effect of stainless steel and titanium low-contact dynamic compression plate application on the vascularity and mechanical properties of cortical bone after fracture, 490
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Internal fixation of experimental intraarticular calcaneal fractures: a biomechanical analysis of two fixation methods, 425
Intraarticular calcaneus fractures: a biomechanical comparison of two fixation methods, 34
A new technique for complex fibula fracture fixation in the elderly: a clinical and biomechanical evaluation, 28
Optimal side plate fixation for unstable intertrochanteric hip fractures, 254
The role of fibular fixation in combined fractures of the tibia and fibula: a biomechanical investigation, 206
Stability of open-book pelvic fractures using a new biomechanical model of single-limb stance, 590
Blade plates
Distal femoral fixation: a biomechanical comparison of the standard condylar buttress plate, a locked buttress plate, and the 95-degree blade plate, 521
Blood transfusion
Does blood transfusion increase the risk of infection after hip fracture?, 260
Bone
Effect of stainless steel and titanium low-contact dynamic compression plate application on the vascularity and mechanical properties of cortical bone after fracture, 490
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Strength recovery in fractured sheep tibia treated with a plate or an internal fixator: an experimental study with a two-year follow-up, 14
Bone blood flow
Effect of stainless steel and titanium low-contact dynamic compression plate application on the vascularity and mechanical properties of cortical bone after fracture, 490
Bone cement
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110
Bone defect
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Spontaneous healing of a massive tibial cortical defect, 133
Bone graft
Bovine-derived bone protein as a bone graft substitute in a canine segmental defect model, 496
The necessity of acute bone grafting in diaphyseal forearm fractures: a retrospective review, 288
Bone morphogenetic protein
Bovine-derived bone protein as a bone graft substitute in a canine segmental defect model, 496
Bone plate fixation
Bone plate fixation: an evaluation of interface contact area and force of the dynamic compression plate (DCP) and the limited contact–dynamic compression plate (LC-DCP) applied to cadaveric bone, 368
Bone plug autograft
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Bone substitutes
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Bone transport
Spontaneous healing of a massive tibial cortical defect, 133

Bone–pin interface
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Book reviews
The Adult Spine: Principles & Practice, end ed., edited by John W. Frymoyer et al., 461
Arthroscopic Surgery: The Foot and Ankle, Richard D. Ferkel, 241
Atlas of Shoulder Surgery, Richard J. Hawkins, Robert H. Bell, and Steven B. Lippet, 145
CD Roentgen, Michael McDermott and Thorsten Krebs, 315
Color Atlas in Text of Osteotomy of the Hip, edited by Malcom F. Macnicol, 68
Fractures, 4th ed., edited by Charles Rockwood Jr., 461
Fractures in Adults, 4th ed, edited by Charles Rockwood, David Greene, Robert Bucholz, and James Heckman, 145
Handbook of Pediatric Orthopedics, Paul D. Sponseller and Heidi M. Stephens, 241
Hughston Clinic Sports Medicine Field Manual, edited by Champ L. Baker, Jr., 68
Operative Pediatric Orthopaedics, 2nd ed., edited by F. Terry Canale and James H. Beaty, 68
Operative Techniques in Upper Extremity Sports Injuries, Frank W. Job, 69
Pediatric Orthopaedics, Ramon T. Morrissy and Stuart L. Weinstein, 315
Rotator Cuff Disorders, Wayne Z. Burkhead, 69
Shoulder Injuries in the Athlete, edited by Richard J. Hawkins and Gary W. Misamore, 69
The Spine: Master Techniques in Orthopaedic Surgery, edited by David S. Bradford, 462
Techniques in Hand Surgery, edited by William F. Blair, 68
Boss-Holzack-Matter method
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
Brachial plexus
Bilateral brachial plexus compressive neuropathy (crutch palsy), 136

Calcaneus
Avulsion fracture of the calcaneus: report of a case using a new tension band technique, 61
Evaluation of fracture predilection in the calcaneus after external fixator pin removal, 430
Internal fixation of experimental intraarticular calcaneal fractures: a biomechanical analysis of two fixation methods, 425
Intraarticular calcaneus fractures: a biomechanical comparison of two fixation methods, 34
Preoperative and postoperative evaluation of intra-articular fractures of the calcaneus based on computed tomography scanning, 435
Calcium phosphate cement
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110
Cancellous bone cement
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110
Cannulated screws
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Capitate fracture
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Capsule tear
Recurrent traumatic dislocation of the hip: report of a case and review of the literature, 382
Carpometacarpal dislocation
Carpometacarpal dislocation of the thumb associated with ipsilateral fracture of the distal radius, 311
Cartilage injury
Effect of impact load on articular cartilage: development of an intra-articular fracture model, 319
Cast
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Children
Irreducible open intertrochanteric hip fracture secondary to entrapment of the sciatic nerve in a child, 38
Lateral condyle fractures in children: evaluation of classification and treatment, 117
Open reduction and internal fixation of a glenoid fossa fracture in a child: a case report and review of the literature, 452
Radial nerve palsy associated with slightly angulated pediatric supracondylar humerus fracture, 227
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Train injuries in children, 126
Treatment of type II and type III open tibia fractures in children, 357
Clinical research
Planning the design phase of a clinical study, 63
Closed reduction
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Colles' fracture
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110
Comminuted fracture
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Subfascial plate fixation of comminuted diaphyseal femoral fractures: a report of three cases utilizing biological osteosynthesis, 57
Comminution
Transolecranon fracture–dislocation of the elbow, 545
Compartment pressure
Compartment pressure during nonreamed tibial nailing without traction, 24
Complications
Early complications in the operative treatment of patella fractures, 183
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
Iliosacral screw fixation: early complications of the percutaneous technique, 584
Intrapelvic dislocation of the left hemipelvis as a complication of the pelvic "C" clamp: a case report and review, 540
Total hip arthroplasty for complications of proximal femoral fractures, 166
Compression plates
Effect of stainless steel and titanium low-contact dynamic compression plate application on the vascularity and mechanical properties of cortical bone after fracture, 490
Compressive neuropathy
Bilateral brachial plexus compressive neuropathy (crutch palsy), 136
Computed tomography
Impact of CT scan on treatment plan and fracture classification of tibial plateau fractures, 484
Preoperative and postoperative evaluation of intra-articular fractures of the calcaneus based on computed tomography scanning, 435
Condylar buttress plate
Distal femoral fixation: a biomechanical comparison of the standard condylar buttress plate, a locked buttress plate, and the 95-degree blade plate, 521
Condyle fracture
Femoral-sided fracture–dislocation of the knee, 416
Lateral condyle fractures in children: evaluation of classification and treatment, 117
Cortical bone
Effect of stainless steel and titanium low-contact dynamic compression plate application on the vascularity and mechanical properties of cortical bone after fracture, 490
Cortical defect
Spontaneous healing of a massive tibial cortical defect, 133
Cruciate ligaments
Knee dislocation: initial assessment and implications for treatment, 525
Crutch palsy
Bilateral brachial plexus compressive neuropathy (crutch palsy), 136

Debridement
Treatment of type II and type III open tibia fractures in children, 357
Deep venous thrombosis
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267
Diaphyseal bone
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Diaphyseal fractures
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
The necessity of acute bone grafting in diaphyseal forearm fractures: a retrospective review, 288
Disinfection
Benzalkonium chloride: a potential disinfecting irrigation solution, 121
Dislocation
Anterior subtalar dislocation: case report, 235
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
Carpometacarpal dislocation of the thumb associated with ipsilateral fracture of the distal radius, 311
Femoral-sided fracture–dislocation of the knee, 416
Intrapelvic dislocation of the left hemipelvis as a complication of the pelvic "C" clamp: a case report and review, 540
Knee dislocation: initial assessment and implications for treatment, 525
Magnetic resonance imaging for irreducible posterolateral knee dislocation, 457
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378
Open total talus dislocation: case report and review of the literature, 45
Parturition-induced pelvic dislocation: a report of four cases, 277
Recurrent traumatic dislocation of the hip: report of a case and review of the literature, 382
Reimplantation of the totally extruded talus, 42
Transolecranon fracture–dislocation of the elbow, 545
Distal aiming device
A new technique for the distal locking of solid AO unreamed tibial nails, 446
Distal interlocking nails
Stereo fluoroscopy-assisted distal interlocking of intramedullary nails, 300

Dosimetry
Radiation exposure to the orthopaedic surgical team during fluoroscopy: "How far away is far enough?," 392
Dynamic compression plate
Bone plate fixation: an evaluation of interface contact area and force of the dynamic compression plate (DCP) and the limited contact–dynamic compression plate (LC-DCP) applied to cadaveric bone, 368

Editorials
Articular fracture reconstruction, 318
Gunshot wounds: a public health care crisis, 147
Not just another pretty face, 1
The orthopaedist and fracture care, 389
OTA presidential address, 317
The problem with apples and oranges, 465
Thomas A. Einhorn, 243
Elbow
Lateral condyle fractures in children: evaluation of classification and treatment, 117
Occurrence of neuropathic osteoarthropathy of the elbow joint after fixation of the radius nonunion in a patient with syringomyelia, 454
Transolecranon fracture–dislocation of the elbow, 545
Elderly
Does blood transfusion increase the risk of infection after hip fracture?, 260
Functional recovery following hip fracture in the elderly, 594
Hip fractures in the elderly: predictors of one year mortality, 162
A new technique for complex fibula fracture fixation in the elderly: a clinical and biomechanical evaluation, 28
Electromyography
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328
Intraoperative monitoring of motor pathways during operative fixation of acute acetabular fractures, 2
Epiphyseal separation
Double type III epiphyseal separation of distal ulna associated with ulnar nerve palsy, 138
Erratum
Invited commentary, Joel M. Matta, 11(4):281–282, 543
External fixation
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Evaluation of fracture predilection in the calcaneus after external fixator pin removal, 430
External fixation for severe open fractures of the humerus caused by missiles, 536
Intrapelvic dislocation of the left hemipelvis as a complication of the pelvic "C" clamp: a case report and review, 540
The management of femoral diaphyseal nonunions, 513
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Supracondylar fractures of the femur treated by external fixation, 405
Treatment of type II and type III open tibia fractures in children, 357
External fixator
A simple technique for creating hybrid fixators using a modified AO single adjustable clamp, 54
Extraction device failure
Technique for removal of intramedullary nails when there is failure of the proximal extraction device: a report of three cases, 130

Failed fracture care
Total hip arthroplasty for complications of proximal femoral fractures, 166
Fat embolism
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
Fat embolism syndrome from an isolated humerus fracture, 141
Fatigue properties
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Female physiology
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Femoral nails
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
Femoral neck fracture
Biomechanical comparison of internal fixation techniques for the treatment of unstable basicervical femoral neck fractures, 337
Femoral nerve palsy
Femoral nerve palsy associated with an associated posterior wall transverse acetabular fracture, 40
Femoral shaft fracture
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89
Femur
Abduction strength following intramedullary nailing of the femur, 93

Supracondylar fractures of the femur treated by external fixation, 405
A technique for intramedullary nailing of proximal third tibia fractures, 218
Total hip arthroplasty for complications of proximal femoral fractures, 166
Treatment of delayed and nonunion of the patella, 188
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89
Treatment of type II and type III open tibia fractures in children, 357
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180

Fracture classification
Assessment of the AO/ASIF fracture classification for the distal tibia, 477
A critical assessment of factors influencing reliability in the classification of fractures, using fractures of the tibial plafond as a model, 471
Impact of CT scan on treatment plan and fracture classification of tibial plateau fractures, 484
Interobserver variation in the AO/OTA fracture classification system for pilon fractures: Is there a problem?, 467

Fracture–dislocation
Double type III epiphyseal separation of distal ulna associated with ulnar nerve palsy, 138

Fracture–dislocation (*cont.*)
Femoral-sided fracture–dislocation of the knee, 416
Transolecranon fracture–dislocation of the elbow, 545
Functional outcome analysis
Functional outcome analysis of operatively treated malleolar fractures, 106
Functional recovery
Functional recovery following hip fracture in the elderly, 594
Functional treatment
Functional treatment of humeral shaft fractures: indications and results, 283

Galeazzi fracture–dislocation
Double type III epiphyseal separation of distal ulna associated with ulnar nerve palsy, 138
Gamma nailing
Gamma nailing of pertrochanteric and subtrochanteric fractures: clinical results of a series of 63 consecutive cases, 412
Genitourinary function
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Glenoid fossa fracture
Open reduction and internal fixation of a glenoid fossa fracture in a child: a case report and review of the literature, 452
Grafting
Bovine-derived bone protein as a bone graft substitute in a canine segmental defect model, 496
The necessity of acute bone grafting in diaphyseal forearm fractures: a retrospective review, 288
Gunshot wound
External fixation for severe open fractures of the humerus caused by missiles, 536
Gunshot wounds: a public health care crisis, 147
The impact of gunshot wounds on an orthopaedic surgical service in an urban trauma center, 149
Intraarticular findings after gunshot wounds through the knee, 422
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Spontaneous healing of a massive tibial cortical defect, 133

Healing
Spontaneous healing of a massive tibial cortical defect, 133
Strength recovery in fractured sheep tibia treated with a plate or an internal fixator: an experimental study with a two-year follow-up, 14
Health care crisis
Gunshot wounds: a public health care crisis, 147
High-risk patient
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267
Hip arthroplasty
Total hip arthroplasty for complications of proximal femoral fractures, 166
Hip dislocation
Recurrent traumatic dislocation of the hip: report of a case and review of the literature, 382
Hip fracture
Does blood transfusion increase the risk of infection after hip fracture?, 260
Functional recovery following hip fracture in the elderly, 594
Hip fractures in the elderly: predictors of one year mortality, 162
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Irreducible open intertrochanteric hip fracture secondary to entrapment of the sciatic nerve in a child, 38
Optimal side plate fixation for unstable intertrochanteric hip fractures, 254
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180
Histology
Early histologic and ultrastructural changes in microvessels of periosteal callus, 244
Humeral shaft fracture
Functional treatment of humeral shaft fractures: indications and results, 283
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Humerus
External fixation for severe open fractures of the humerus caused by missiles, 536
Segmental avascularity of the humeral diaphysis after reamed intramedullary nailing, 308
Humerus fracture
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Fat embolism syndrome from an isolated humerus fracture, 141
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Radial nerve palsy associated with slightly angulated pediatric supracondylar humerus fracture, 227
Hydroxyapatite
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110

Iliosacral screw
Iliosacral screw fixation: early complications of the percutaneous technique, 584
Ilizarov fixation
Spontaneous healing of a massive tibial cortical defect, 133
Impact load
Effect of impact load on articular cartilage: development of an intra-articular fracture model, 319
Implant failure
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Incontinence
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Infection
Does blood transfusion increase the risk of infection after hip fracture?, 260
The management of femoral diaphyseal nonunions, 513
Infrapatellar nerve
The infrapatellar branch of the saphenous nerve: an anatomic study, 195
Injury mechanism
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82
Innominosacral dissociation
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82
Interface contact area
Bone plate fixation: an evaluation of interface contact area and force of the dynamic compression plate (DCP) and the limited contact–dynamic compression plate (LC-DCP) applied to cadaveric bone, 368
Interlocking nails
A new technique for the distal locking of solid AO unreamed tibial nails, 446
Stereo fluoroscopy-assisted distal interlocking of intramedullary nails, 300
Internal fixation
Biomechanical comparison of internal fixation techniques for the treatment of unstable basicervical femoral neck fractures, 337
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Internal fixation in postpartum symphysis pubis rupture: report of three cases, 273
Internal fixation of experimental intraarticular calcaneal fractures: a biomechanical analysis of two fixation methods, 425
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378
A new technique for complex fibula fracture fixation in the elderly: a clinical and biomechanical evaluation, 28
Open reduction and internal fixation of a glenoid fossa fracture in a child: a case report and review of the literature, 452
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Preoperative and postoperative evaluation of intraarticular fractures of the calcaneus based on computed tomography scanning, 435
The role of fibular fixation in combined fractures of the tibia and fibula: a biomechanical investigation, 206
Strength recovery in fractured sheep tibia treated with a plate or an internal fixator: an experimental study with a two-year follow-up, 14
Interobserver reliability
A critical assessment of factors influencing reliability in the classification of fractures, using fractures of the tibial plafond as a model, 471
Interobserver reproducibility
Assessment of the AO/ASIF fracture classification for the distal tibia, 477
Interobserver variability
Interobserver variation in the AO/OTA fracture classification system for pilon fractures: Is there a problem?, 467
Intertrochanteric fractures
Optimal side plate fixation for unstable intertrochanteric hip fractures, 254
Intraarticular fracture
Effect of impact load on articular cartilage: development of an intra-articular fracture model, 319
Intramedullary entrapment
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Intramedullary fixation
Abduction strength following intramedullary nailing of the femur, 93
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Intramedullary nailing
Abduction strength following intramedullary nailing of the femur, 93
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Knee pain after tibial nailing, 10
Segmental avascularity of the humeral diaphysis after reamed intramedullary nailing, 308
Technical notes on a radiolucent distractor for indirect reduction and intramedullary nailing, 374
A technique for intramedullary nailing of proximal third tibia fractures, 218

The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89

Intramedullary nails
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Stereo fluoroscopy-assisted distal interlocking of intramedullary nails, 300
Technique for removal of intramedullary nails when there is failure of the proximal extraction device: a report of three cases, 130

Intramedullary reaming
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89

Intraobserver reliability
Assessment of the AO/ASIF fracture classification for the distal tibia, 477

Intraoperative complications
Early complications in the operative treatment of patella fractures, 183
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
Total hip arthroplasty for complications of proximal femoral fractures, 166

Irrigation agent
Benzalkonium chloride: a potential disinfecting irrigation solution, 121

Knee
Femoral-sided fracture–dislocation of the knee, 416
Intraarticular findings after gunshot wounds through the knee, 422
Knee dislocation: initial assessment and implications for treatment, 525
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Knee pain after tibial nailing, 10
Magnetic resonance imaging for irreducible posterolateral knee dislocation, 457

K-wire
Intraarticular calcaneus fractures: a biomechanical comparison of two fixation methods, 34

Leg length inequality
Abduction strength following intramedullary nailing of the femur, 93

Letters to editor
Pubic rami fracture, 386
In response to article by McKee, 238
In response to article by Naranja, 238
Titanium plate fixation, 239, 240

Limited contact–dynamic compression plate
Bone plate fixation: an evaluation of interface contact area and force of the dynamic compression plate (DCP) and the limited contact–dynamic compression plate (LC-DCP) applied to cadaveric bone, 368

Locked buttress plate
Distal femoral fixation: a biomechanical comparison of the standard condylar buttress plate, a locked buttress plate, and the 95-degree blade plate, 521

Locked intramedullary nail
Comparative biomechanical analysis of supracondylar femur fracture fixation. locked intramedullary nail versus 95-degree angled plate, 344

Lumbosacral junction injury
Associated lumbosacral junction injuries (LSJIs) in pelvic fractures, 509

Magnetic resonance imaging
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330
Magnetic resonance imaging for irreducible posterolateral knee dislocation, 457
MR imaging of biodegradable polylevolactide osteosynthesis devices in the ankle, 559

Malalignment
A technique for intramedullary nailing of proximal third tibia fractures, 218

Malleolar fracture
Functional outcome analysis of operatively treated malleolar fractures, 106

Medoff sliding plate
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180

Metacarpal fracture
Fractures of the fourth metacarpal, 441

Metastasis
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233

Methylmethacrylate
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577

Microhardness analysis
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154

Microvessels
Early histologic and ultrastructural changes in microvessels of periosteal callus, 244

Milch classification
Lateral condyle fractures in children: evaluation of classification and treatment, 117

Monitoring
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328
Intraoperative monitoring of motor pathways during operative fixation of acute acetabular fractures, 2

Morbidity predictor
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82

Mortality predictors
Hip fractures in the elderly: predictors of one year mortality, 162
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82

Nailing
Abduction strength following intramedullary nailing of the femur, 93
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Compartment pressure during nonreamed tibial nailing without traction, 24
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Gamma nailing of pertrochanteric and subtrochanteric fractures: clinical results of a series of 63 consecutive cases, 412
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Knee pain after tibial nailing, 10
Segmental avascularity of the humeral diaphysis after reamed intramedullary nailing, 308
Technical notes on a radiolucent distractor for indirect reduction and intramedullary nailing, 374
A technique for intramedullary nailing of proximal third tibia fractures, 218
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89

Nails
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
A new technique for the distal locking of solid AO unreamed tibial nails, 446
Stereo fluoroscopy-assisted distal interlocking of intramedullary nails, 300
Technique for removal of intramedullary nails when there is failure of the proximal extraction device: a report of three cases, 130

Neoplasm metastasis
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233

Nerve entrapment
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Irreducible open intertrochanteric hip fracture secondary to entrapment of the sciatic nerve in a child, 38

Nerve injury
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328

Nerves
Femoral nerve palsy associated with an associated posterior wall transverse acetabular fracture, 40
The infrapatellar branch of the saphenous nerve: an anatomic study, 195
Radial nerve palsy associated with slightly angulated pediatric supracondylar humerus fracture, 227

Neuropathic osteoarthropathy
Occurrence of neuropathic osteoarthropathy of the elbow joint after fixation of the radius nonunion in a patient with syringomyelia, 454

Neuropathy
Bilateral brachial plexus compressive neuropathy (crutch palsy), 136

Nonunion
The management of femoral diaphyseal nonunions, 513
Nonunion of distal radial fractures associated with distal ulnar shaft fractures: a report of four cases, 49
Occurrence of neuropathic osteoarthropathy of the elbow joint after fixation of the radius nonunion in a patient with syringomyelia, 454
Spontaneous healing of a massive tibial cortical defect, 133
Treatment of delayed and nonunion of the patella, 188

Olecranon
Biomechanical comparison of fixation methods in transverse olecranon fractures: a cadaveric study, 565
Transolecranon fracture–dislocation of the elbow, 545

Open dislocation
Open total talus dislocation: case report and review of the literature, 45

Open fracture
External fixation for severe open fractures of the humerus caused by missiles, 536
Irreducible open intertrochanteric hip fracture secondary to entrapment of the sciatic nerve in a child, 38
Treatment of type II and type III open tibia fractures in children, 357

Open reduction
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378

Open reduction (*cont.*)
Open reduction and internal fixation of a glenoid fossa fracture in a child: a case report and review of the literature, 452
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Preoperative and postoperative evaluation of intra-articular fractures of the calcaneus based on computed tomography scanning, 435
Osteopenia
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Osteosynthesis
Fat embolism and death during prophylactic osteosynthesis of a metastatic femur using an unreamed femoral nail, 233
Subfascial plate fixation of comminuted diaphyseal femoral fractures: a report of three cases utilizing biological osteosynthesis, 57
Outcome
Functional outcome analysis of operatively treated malleolar fractures, 106
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Pubic rami fracture: a benign pelvic injury?, 7
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89

Pain
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Knee pain after tibial nailing, 10
Parturition
Parturition-induced pelvic dislocation: a report of four cases, 277
Patella
Biomechanical evaluation of current patella fracture fixation techniques, 351
Early complications in the operative treatment of patella fractures, 183
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Treatment of delayed and nonunion of the patella, 188
Patellar tendon
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Pelvic clamp
Intrapelvic dislocation of the left hemipelvis as a complication of the pelvic "C" clamp: a case report and review, 540
Pelvic fracture
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Iliosacral screw fixation: early complications of the percutaneous technique, 584
Stability of open-book pelvic fractures using a new biomechanical model of single-limb stance, 590
Pelvic injury
Pubic rami fracture: a benign pelvic injury?, 7
Pelvic ring
Associated lumbosacral junction injuries (LSJIs) in pelvic fractures, 509
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82
Pelvis
Intrapelvic dislocation of the left hemipelvis as a complication of the pelvic "C" clamp: a case report and review, 540
Parturition-induced pelvic dislocation: a report of four cases, 277
Penetrating injury
Intraarticular findings after gunshot wounds through the knee, 422
Percutaneous pin fixation
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Periosteal callus
Early histologic and ultrastructural changes in microvessels of periosteal callus, 244
Periprosthetics
Results of an operative policy in the treatment of periprosphetic femoral fracture, 170
Pilon fracture
Assessment of the AO/ASIF fracture classification for the distal tibia, 477
Evaluation of fracture predilection in the calcaneus after external fixator pin removal, 430
Interobserver variation in the AO/OTA fracture classification system for pilon fractures: Is there a problem?, 467
A simple technique for creating hybrid fixators using a modified AO single adjustable clamp, 54
Pin fixation
Biomechanical comparison of intramedullary and percutaneous pin fixation for proximal humeral fracture fixation, 363
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Pins
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Evaluation of fracture predilection in the calcaneus after external fixator pin removal, 430
Plaster cast
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Plate fixation
Bone plate fixation: an evaluation of interface contact area and force of the dynamic compression plate (DCP) and the limited contact–dynamic compression plate (LC-DCP) applied to cadaveric bone, 368
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Distal femoral fixation: a biomechanical comparison of the standard condylar buttress plate, a locked buttress plate, and the 95-degree blade plate, 521
The management of femoral diaphyseal nonunions, 513
Strength recovery in fractured sheep tibia treated with a plate or an internal fixator: an experimental study with a two-year follow-up, 14
Policy
Results of an operative policy in the treatment of periprosphetic femoral fracture, 170
Polylactides
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Polylevolactide
MR imaging of biodegradable polylevolactide osteosynthesis devices in the ankle, 559
Popliteal artery
Knee dislocation: initial assessment and implications for treatment, 525
Postpartum complications
Internal fixation in postpartum symphysis pubis rupture: report of three cases, 273
Pregnancy
Parturition-induced pelvic dislocation: a report of four cases, 277
Prevention
Train injuries in children, 126
Prophylaxis
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267
Prosthetic
Results of an operative policy in the treatment of periprosphetic femoral fracture, 170
Pubic ramus
Pubic rami fracture: a benign pelvic injury?, 7
Pubic symphysis
Stability of open-book pelvic fractures using a new biomechanical model of single-limb stance, 590
Public health
Gunshot wounds: a public health care crisis, 147
Pulmonary embolism
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267

Quadriceps tendon
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304

Radial nerve entrapment
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Radial nerve palsy
Intramedullary entrapment of the radial nerve associated with humeral shaft fracture, 224
Radial nerve palsy associated with slightly angulated pediatric supracondylar humerus fracture, 227
Radiation exposure
Radiation exposure to the orthopaedic surgical team during fluoroscopy: "How far away is far enough?," 392
Radiocarpal articular pressures
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Radiolucent distractor
Technical notes on a radiolucent distractor for indirect reduction and intramedullary nailing, 374
Radius
Occurrence of neuropathic osteoarthropathy of the elbow joint after fixation of the radius nonunion in a patient with syringomyelia, 454
Repair of five distal radius fractures with an investigational cancellous bone cement: a preliminary report, 110
Radius fracture
Carpometacarpal dislocation of the thumb associated with ipsilateral fracture of the distal radius, 311
The necessity of acute bone grafting in diaphyseal forearm fractures: a retrospective review, 288
Nonunion of distal radial fractures associated with distal ulnar shaft fractures: a report of four cases, 49
Plaster cast versus percutaneous pin fixation for comminuted fractures of the distal radius in patients between 46 and 65 years of age, 212
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Reamed intramedullary nailing
Segmental avascularity of the humeral diaphysis after reamed intramedullary nailing, 308
Reaming
The treatment of femoral shaft fractures using intramedullary interlocked nails with and without intramedullary reaming: a preliminary report, 89

Reconstruction
Acute repair and delayed reconstruction for lateral ankle instability: twenty-year follow-up study, 530
Articular fracture reconstruction, 319
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Reduction
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378
Open reduction and internal fixation of a glenoid fossa fracture in a child: a case report and review of the literature, 452
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Preoperative and postoperative evaluation of intra-articular fractures of the calcaneus based on computed tomography scanning, 435
Radiocarpal articular pressures during the reduction of distal radius fractures, 295
Technical notes on a radiolucent distractor for indirect reduction and intramedullary nailing, 374
Reimplantation
Reimplantation of the totally extruded talus, 42
Removal techniques
Technique for removal of intramedullary nails when there is failure of the proximal extraction device: a report of three cases, 130
Reproductive function
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Research design
Planning the design phase of a clinical study, 63
Resorbable membrane
Regeneration of diaphyseal bone defects using resorbable poly(L/DL-lactide) and poly(D-lactide) membranes in the Yucatan pig model, 551
Resuscitation
Innominosacral dissociation: mechanism of injury as a predictor of resuscitation requirements, morbidity, and mortality, 82
Ring fixator
A simple technique for creating hybrid fixators using a modified AO single adjustable clamp, 54

Sacral fracture
Associated lumbosacral junction injuries (LSJIs) in pelvic fractures, 509
Saphenous nerve
The infrapatellar branch of the saphenous nerve: an anatomic study, 195
Scanning electron microscopy
Biomechanical, scanning electron microscopy, and microhardness analyses of the bone–pin interface in hydroxyapatite coated versus uncoated pins, 154
Scaphocapitate syndrome
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Scaphoid fracture
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Sciatic nerve
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328
Intraoperative monitoring of motor pathways during operative fixation of acute acetabular fractures, 2
Irreducible open intertrochanteric hip fracture secondary to entrapment of the sciatic nerve in a child, 38
Screening
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330
Screws
Hip screw augmentation with an in situ-setting calcium phosphate cement: an in vitro biomechanical analysis, 577
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Optimal side plate fixation for unstable intertrochanteric hip fractures, 254
Segmental defect
Bovine-derived bone protein as a bone graft substitute in a canine segmental defect model, 496
Shortening
Fractures of the fourth metacarpal, 441
Shoulder
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
Side plate fixation
Optimal side plate fixation for unstable intertrochanteric hip fractures, 254
Sliding plates
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180
Somatosensory evoked potential monitoring
Incidence of sciatic nerve injury in operatively treated acetabular fractures without somatosensory evoked potential monitoring, 328
Intraoperative monitoring of motor pathways during operative fixation of acute acetabular fractures, 2
Stereo fluoroscopy
Stereo fluoroscopy-assisted distal interlocking of intramedullary nails, 300
Sternoclavicular joint
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378
Stress incontinence
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Subcoracoid joint
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
Subfascial plate fixation
Subfascial plate fixation of comminuted diaphyseal femoral fractures: a report of three cases utilizing biological osteosynthesis, 57
Subglenoid joint
Anteroinferior shoulder dislocation: an auto-reduction method without analgesia, 399
Subtalar dislocation
Anterior subtalar dislocation: case report, 235
Subtrochanteric fracture
Use of the Medoff sliding plate for subtrochanteric hip fracture, 180
Supracondylar fracture
Comparative biomechanical analysis of supracondylar femur fracture fixation: locked intramedullary nail versus 95-degree angled plate, 344
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Radial nerve palsy associated with slightly angulated pediatric supracondylar humerus fracture, 227
Supracondylar fractures of the femur treated by external fixation, 405
Surgery
Early complications in the operative treatment of patella fractures, 183
Results of an operative policy in the treatment of periprosthetic femoral fracture, 170
Surgical approach
Recurrent traumatic dislocation of the hip: report of a case and review of the literature, 382
Surgical service
The impact of gunshot wounds on an orthopaedic surgical service in an urban trauma center, 149
Surgical team
Radiation exposure to the orthopaedic surgical team during fluoroscopy: "How far away is far enough?," 392
Surgical techniques
Acute repair and delayed reconstruction for lateral ankle instability: twenty-year follow-up study, 530
Biomechanical evaluation of current patella fracture fixation techniques, 351
A method for open reduction and internal fixation of the unstable posterior sternoclavicular joint dislocation, 378
Total hip arthroplasty for complications of proximal femoral fractures, 166
Symphysis pubis rupture
Internal fixation in postpartum symphysis pubis rupture: report of three cases, 273
Syringomyelia
Occurrence of neuropathic osteoarthropathy of the elbow joint after fixation of the radius nonunion in a patient with syringomyelia, 454

Talectomy
Open total talus dislocation: case report and review of the literature, 45
Talonavicular joint
Anterior subtalar dislocation: case report, 235
Talus
Anterior subtalar dislocation: case report, 235
Open total talus dislocation: case report and review of the literature, 45
Reimplantation of the totally extruded talus, 42
Tendon rupture
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Tension band wiring
Avulsion fracture of the calcaneus: report of a case using a new tension band technique, 61
Biomechanical comparison of fixation methods in transverse olecranon fractures: a cadaveric study, 565
Thromboembolism
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330
Thumb
Carpometacarpal dislocation of the thumb associated with ipsilateral fracture of the distal radius, 311
Tibia
Compartment pressure during nonreamed tibial nailing without traction, 24
Knee pain after intramedullary tibial nailing: its incidence, etiology, and outcome, 103
Spontaneous healing of a massive tibial cortical defect, 133
Strength recovery in fractured sheep tibia treated with a plate or an internal fixator: an experimental study with a two-year follow-up, 14
Tibia fracture
Intramedullary nailing of unstable diaphyseal fractures of the tibia with distal intraarticular involvement, 200
The role of fibular fixation in combined fractures of the tibia and fibula: a biomechanical investigation, 206
A technique for intramedullary nailing of proximal third tibia fractures, 218
Treatment of type II and type III open tibia fractures in children, 357
Tibial plafond
Assessment of the AO/ASIF fracture classification for the distal tibia, 477

Tibial plafond (*cont.*)
A critical assessment of factors influencing reliability in the classification of fractures, using fractures of the tibial plafond as a model, 471
Tibial plateau fracture
Impact of CT scan on treatment plan and fracture classification of tibial plateau fractures, 484
A simple technique for creating hybrid fixators using a modified AO single adjustable clamp, 54
Tibial shaft fracture
Knee pain after tibial nailing, 10
A new technique for the distal locking of solid AO unreamed tibial nails, 446
Tibial tubercle
Patellar tendon and tibial tubercle reconstruction using quadriceps tendon with patellar bone plug autograft, 304
Train injury
Train injuries in children, 126
Transolecranon fracture–dislocation
Transolecranon fracture–dislocation of the elbow, 545
Transphyseal fracture
Lateral condyle fractures in children: evaluation of classification and treatment, 117
Trauma
Effect of trauma and pelvic fracture on female genitourinary, sexual, and reproductive function, 73
Fatigue properties of a twelve-hole versus a five-hole intramedullary supracondylar nail, 98
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267
Recurrent traumatic dislocation of the hip: report of a case and review of the literature, 382
Trauma center
The impact of gunshot wounds on an orthopaedic surgical service in an urban trauma center, 149
Treatment plan
Impact of CT scan on treatment plan and fracture classification of tibial plateau fractures, 484
Trochanteric fracture
Gamma nailing of pertrochanteric and subtrochanteric fractures: clinical results of a series of 63 consecutive cases, 412
Trochlear notch
Transolecranon fracture–dislocation of the elbow, 545

Ulna
Transolecranon fracture–dislocation of the elbow, 545
Ulna fracture
The necessity of acute bone grafting in diaphyseal forearm fractures: a retrospective review, 288
Scaphocapitate syndrome in a child associated with a distal radius and ulna fracture, 230
Ulnar head
Double type III epiphyseal separation of distal ulna associated with ulnar nerve palsy, 138
Ulnar nerve palsy
Double type III epiphyseal separation of distal ulna associated with ulnar nerve palsy, 138
Ulnar shaft fracture
Nonunion of distal radial fractures associated with distal ulnar shaft fractures: a report of four cases, 49
Ultrastructural change
Early histologic and ultrastructural changes in microvessels of periosteal callus, 244
Unit-dose packaging
Benzalkonium chloride: a potential disinfecting irrigation solution, 121
Urban trauma center
The impact of gunshot wounds on an orthopaedic surgical service in an urban trauma center, 149

Vascularized fibula transfer
The management of femoral diaphyseal nonunions, 513
Vena cava filter
Prophylactic vena cava filter insertion in selected high-risk orthopaedic trauma patients, 267
Venography
The detection and management of proximal deep venous thrombosis in patients with acute acetabular fractures: a follow-up report, 330

Wiring
Open reduction internal fixation of displaced transverse patella fractures with figure-eight wiring through parallel cannulated compression screws, 573
Wrist arthrodesis
Nonunion of distal radial fractures associated with distal ulnar shaft fractures: a report of four cases, 49
